

MIAP Workshop Program 2018

Specialist Training: Laser Ablation, Photomanipulation and Optogenetics

kindly supported by Rapp OptoElectronic GmbH

A 2-day workshop* featuring the Rapp laser ablation system installed at the Life Imaging Center (LIC), Freiburg University. This specialist workshop will cover common scenarios and fields of application for laser ablation, photo manipulation and optogenetics. This workshop is targeted to life science researchers with focus on current and future users of the Rapp laser system installation at the LIC.

April 26th - 27th 2018

For registration* and a preliminary agenda please visit:

<https://www.miap.eu>

*Registration is mandatory and free of charge. MIAP will provide snacks and refreshments.

Venue:

Albert-Ludwigs University Freiburg
Center for Biological Systems Analysis (ZBSA)
Life Imaging Center (LIC)
Habsburgerstr. 49
79104 Freiburg im Breisgau
