# MIAP Workshop Series 2019

Huygens Workshop

Life Imaging Center (LIC), Center for Biological Systems Analysis (ZBSA), Albert-Ludwigs University, Habsburgerstr. 49, 79104 Freiburg im Breisgau

November 26th - 27th 2019

For more information and registration:
https://miap.eu - info@miap.eu

The MIAP Huygens Workshop is a two-day Workshop. The Workshop will focus on Image Deconvolution, Data handling, Visualization, Restoration, and Analysis. Functionalities such as Batch processing and Express tools, will be accelerated with CPU and (multi-)GPU support.

For further datails see the Workshop Agenda
(https://miap.eu/miap-events/miap-workshops/2019-11-huygens-workshop/)

The aim of this course is to improve the knowledge for practical application of Huygens Software tools for Images from Fluorescence Microscopes.
The Workshop is organized by experts in Microscopic Imaging of SVI (Hilversum, Netherlands) and MIAP (Freiburg). The course invites scientists, technicians, postgraduate students and postdocs as well as external guests.

Experts:

Kiefer van Teutem (Scientific Volume Imaging)
