

Quantitative Label-Free Timelapse Live Cell Imaging and Analysis

Invitation to Seminar and Demonstration

Imaging Core Facility, Biozentrum would like to invite you to a seminar by Dr Richard Kasprowicz, followed by a demonstration of the new Phasefocus Livecyte QPI label-free live cell imaging system.

Seminar

Monday 5th March 2018 at 14:30, IMCF seminar room, R188, Biozentrum.

Demonstration

Slots are available between Monday 5th March pm - Friday 9th March
Room 184 in the Imaging Core Facility, Biozentrum.

“Characterising live cell behaviour: Traditional label-free and quantitative phase imaging approaches”, Richard Kasprowicz, Rakesh Suman and Peter . O’Toole. <https://doi.org/10.1016/j.biocel.2017.01.004>.

“Label free imaging to study phenotypic behavioural traits of cells in complex co-cultures” Rakesh Suman, Gabrielle Smith, Katryn E.A. Hazel, Richard Kasprowicz, Mark Coles, Peter O’Toole, and Sangeeta Chawla. Rep. 6, 22032; [doi: 10.1038/srep22032](https://doi.org/10.1038/srep22032) (2016).

For more information, or to reserve a demo slot, please contact Dr Alexia Loynton-Ferrand alexia.ferrand@unibas.ch.
