

MIAP Workshop Series 2022

IMARIS / ANDOR Workshop

Life Imaging Center (LIC) in HMH, University of Freiburg
Habsburgerstr. 49, 79104 Freiburg

September 27th - 30th 2022

For more information and registration:

<https://miap.eu/miap-workshop/imaris-andor-workshop/>

Imaris two-day **Image Analysis Workshop** (29.09.2022 - 30.09.2022) focuses on Image Data handling, Visualization and Analysis. The **1st day** will deal with basic questions about image analysis tools and the **2nd day** with questions for already experienced image analysts.

Beforehand (27.09.2022 - 28.09.2022) you can join an individual 1-hour hands-on training at the new **benchtop confocal microscope BC43** with your samples.

For further details, see the **workshop agenda** (<https://miap.eu/miap-workshop/imaris-andor-workshop/>).

All parts are separately bookable, see link for **registration** >>>

<https://lic-machform.vm.uni-freiburg.de/view.php?id=110414>

The whole workshop is organized by LIC with experts in microscopic imaging of Andor and Bitplane

The workshop is addressed to scientists, technicians, postgraduate students, and postdocs as well as external guests.
